

Dance Season

I like Dance season because it fun and you can just dance. It's a good season because you get to practice your dance moves.

You can run, play, do your own moves and learn moves. You can learn back flips, front flips, back bends, hand stand ben flips. (Its when you do a back bend, but then you get out of it with a flip.) Also a run flip.

I can do back bends, have fun, watch older girls that have been doing this since they were two. (I'm kinda better.)

It looks like your in ballet but in a pop ballet. It not hot, but it not cold. It's kinda in spring and summer. (It's spummer!) It's a good season because theres baby animals and the smell of fresh grass. You can also see leaves falling.

I like dance season because you get to do whatever you want. Plus you can express yourself. When I'm dancing I feel like nothing can stop me.
