

## Folklorico

I love Folklorico because my grandma is from Mexico and she loved Folklorico dancers so I joined for her because she died and I wanted to honor her.

When I dance I always try my best because I want people to tell me "You dance great good job." I love getting compliments from people because I feel like I looked so awesome out there.

I love it because you get to put make up on and you get to put on a beautiful but heavy dress on. I have to put my hair up high in a bun then I put a fake braide thing around it. I have to put two big purple bows on the side of my bun. I also get to meet new friends.

I really want to teach or do a solo. I would want to do a solo so I can show my family what I can do. I liked when our last dance when our group got to do a free style dance. After that everyone got a certificate because we did so good. But now I'm heartbroken because Folklorico is over for the season, but next season I'm going to sign up!
