

## HALLOWEEN

I like Halloween the best because you can dress up any way you want to be. You can be a ladybug, a hunter, a monster, and you can even be a hot dog or banana.

You can be with your family at home even maybe have a Halloween party or giving or receiving candy. If you have a party you can put up streamers and different decorations. If you are giving candy you could or if you don't want to you can wear a costume. If you are getting candy you wear a costume outside and walk with an adult to houses.

On Halloween people dress up in costumes. It looks like candy heaven outside. Sometimes on Halloween there are games you can play for candy. I go straight to the people with a lot of money because they got good candy. Even the extra large candy bars!

I like Halloween because you can spend time with your family and walk to peoples houses with them to.

I thought I was not going to like Halloween but I did. I love Halloween!
