

Summer

I love summer. You can do all sort of fun and cool stuff. But to me, summer is a beautiful thing!

In summer you can go shopping, go to a water park, and ride your bike! Personally my favorite is making a bbq with your family. I love it because your around family and now we're even closer. When it comes to summer it's like you can do anything. Summer is not only my favorite season it's a time to get up, get active and get sweaty.

Summer is a beautiful hot sweaty day. Summer is a season to enjoy how beautiful nature is. Summer looks cool because you can see all these pretty flowers and the sun is shining really bright. Plus summer is a good time to make new friends.

I love summer because it's just another way to being the family closer and closer. For some reason I think summer is ment for me!
