

## Summer

Don't you just feel the summer breeze rolling down your back. It's everyone favorite time of year, SUMMER!!!

What you can do is hit a slope, and surf some waves, chill at the beach, or swim (watch out for sharks). You can do probly anything because NO school!!! A lot of people don't like school, but guess what the best movies come out in the summer. Finally what you can do is just chill at your house and relax.

Well summer looks perfect. Well not perfect, GREAT!!! It has brown grass, it has the hottest tempature here in Texas, sun shining bright, not a speck of rain or snow. Ahh summer.

Why do I like summer so much well duh NO SCHOOL!!! You can stay up late and wake up late. You can call and hang out with your friends a lot more. Lastly no homework. It takes you forever to do homework. Well I just can't wait any longer for my favorite time of year to come again.
